

VIRGINIA EQUINE PLLC

Douglas K. Daniels, DVM Virginia M. DeChant, DVM Heather D. Caplan, DVM

Dear Mare Owner,

The following is a schedule for tracking your mare's pregnancy. This is an optimum care program designed to determine her pregnancy at each important stage and to minimize the possibility of abortion. Please feel free to ask the veterinarian questions regarding your mare's pregnancy.

Mare's name: _____

_____	14 days, post ovulation, ultrasound exam # 1
_____	21 days, ultrasound exam # 2
_____	30 days, palpation / ultrasound
_____	45 days, palpation
_____	3 months, anti-abortion rhino vaccine and palpation
_____	5 months, anti-abortion rhino vaccine, palpation
_____	7 months, anti-abortion rhino vaccine
_____	9 months, anti-abortion rhino vaccine
_____	10 months, pre-foaling vaccines including rabies, influenza, Rhinopneumonitis, Potomac horse fever, tetanus, Eastern / Western encephalitis
_____	EXPECTED foaling date

PLEASE CALL VIRGINIA EQUINE TO SCHEDULE A VETERINARIAN TO COME ON THE DATES ABOVE.

Once again, thank you for breeding your mare at Virginia Equine. If you have any questions or concerns, please do not hesitate to contact Virginia Equine at (804) 784-5419. Also, we would like you to keep us in mind as a professional foaling facility with an educated staff experienced in all aspects of mare and foal care. Please call early to reserve your foaling stall.
